Professional Summary

Frontend-leaning Software Engineer with experience building secure government systems, scalable internal tools, and polished interfaces using React, Next.js, and modern UI frameworks.

Technical Skills

Frontend & UI: React, Next.js, TypeScript, JavaScript (ES6+), Tailwind CSS, Bootstrap, Figma, Responsive UI, Accessibility, Component Architecture.

Backend & APIs: Java, Spring Boot, Node.js, SQL (PostgreSQL, MySQL), REST APIs, Authentication & Security, Data Modelling.

DevOps & Tools: Git, GitLab CI/CD, Linux, Bash, Firebase, Supabase, Tauri, Agile/Scrum.

Other Skills: Rust (familiar), Python, C++, Unity 3D, Blender, Unreal Engine.

Experience

Ministry of Equipment — Software Developer (2024–Present)

Develop internal government web platforms in compliance with national data and security regulations.

Contribute to full-stack applications using Java, Angular, PostgreSQL, and ASP.NET, improving reliability and performance of internal tools.

Enhance system security and scalability through clean code practices and collaboration.

M-INFO — Software Developer (2023)

Built internal workflow tools using Spring Boot, Angular, and Next.js.

Delivered core features, resolved bugs, and maintained detailed documentation.

Improved code quality through modular design and refactoring.

PLUMNETWORK — Project Manager (2022)

Managed full-stack project lifecycles, coordinated teams to resolve blockers, and produced progress reports.

Improved workflow efficiency and ensured client-aligned delivery.

GINIGO Ltd — Frontend Developer & Funnels Designer (2022)

Designed responsive sales funnels with measurable conversion improvements.

Delivered pixel-perfect UI focused on accessibility and performance.

DIGIUP — Systems Developer Intern (2021)

Built HR platform modules using Spring Boot and SQL.

Developed responsive UI components and integrated devices/APIs to enhance platform functionality.

ORMVAO — Web Developer Intern (2020)

Developed a PHP/JavaScript portal automating internship applications.

Implemented sorting and filtering features to improve HR efficiency.

Featured Projects

OneClickCover: AI cover letter generation platform with Chrome extension (Next.js, PostgreSQL, Tailwind, Supabase).

Sweep: Lightweight React slide-up panel UI library.

Skim: AI-powered document analysis tool for PDF/Word/Excel (Next.js, PostgreSQL).

Education

Advanced Technician Certificate (BTS) —

Software Development, Morocco (2023)

Technological Baccalaureate Diploma —

Morocco (2020)
